

Webinar Invitation

Lupus in Hispanic Communities: Challenges and Resources to Support Early Diagnosis and Improved Quality of Care

Friday, January 27 from 1:00 PM EST to 1:45 PM EST

Please join us for our first healthcare providers' webinar of the new year, which will include important information on the prevalence and outcomes of lupus among Hispanics, as well as practical tips on the best techniques to discuss a lupus diagnosis with Hispanic patients.

Presenters:

Jorge Sánchez-Guerrero, M.D., MSc, Head, Division of Rheumatology, Mount Sinai Hospital/University Health Network and Professor of Medicine, University of Toronto.

Leticia Ocaña, MPH, is the Bilingual Health Educator at the Lupus Foundation of America's National Office. She is a seasoned health professional with experience implementing health education programs in the areas of skin and breast cancer prevention, tuberculosis, and diabetes self-management. Leticia holds a Bachelor of Arts degree in Psychology from Stanford University and received her Master of Public Health degree from San Diego State University Graduate School of Public Health.

What:

1. Data on the prevalence and outcomes of lupus among Hispanics
2. Experiences of health care professionals when diagnosing lupus in Hispanic patients including most common misconceptions Hispanics have about lupus
3. Best methods to convey the message of the value of early lupus diagnosis to Hispanics
4. Concerns raised by Hispanic patients once a diagnosis of lupus is made
5. Best techniques to discuss a lupus diagnosis with Hispanic patients and recommend educational materials on lupus

Who Should Attend:

This webinar is intended for general/internal/family medicine physicians, rheumatologists, dermatologists, nurses, physician assistants, nurse practitioners, other allied health professionals, and medical, nursing, and PA students.

When:

Friday, January 27 from 1:00 PM EST to 1:45 PM EST

RSVP: Advance registration is required to join the event.
