

# CASA, Inc.

(Chemical Abuse Services Agency, Inc.)

*Is pleased to announce the implementation of*  
**Buprenorphine/Suboxone**  
*Services in Bridgeport*

Our goal is to provide treatment/recovery services to Opioid dependent individuals via the prescription of Buprenorphine/Suboxone to eligible individuals in the Bridgeport community.

Buprenorphine/Suboxone pharmacological services are very effective in treating an opioid addiction. These services will be offered as part of a comprehensive treatment program in collaboration with CASA's current network of ambulatory services (PHP, IOP and Out/PT) offered at Casa Hostos and Project Courage. Individuals will have access to counseling and other Treatment/Recovery services.

Overall goals of buprenorphine treatment are to reduce the health, social and economic harms to individuals and the community arising from illicit opioid use. Those individuals seeking admission to CASA's Buprenorphine/Suboxone pharmacological services should contact CASA's intake coordinators at the following programs:
